

Documentation - How to use the Application

Fake News Detection

May 2021

1 Landing Page

This is the page where a new or unauthorised user accesses the site.

- On the right side, is a button that will redirect the user towards either the authentication system or the feed page.

1.1 Authentication System

The user will authenticate through the *Auth0* system and will be required to create an account. The necessary account can be created through either the *Auth0* modal or by registering with a *Google* account.

2 Account Setup Page

This is the page where a new user will setup their account.

- The user is presented with a list of news providers which consists of:
 - the avatar of the provider
 - the name of the provider
 - the rating of the provider
 - a checkbox marking if the user is subscribed to the specific news provider
- The user must to select a minimum of 3 news providers.
- After the user has selected the providers, he is required to press the *SAVE SETUP* button on the bottom right to finish the setup of their account.

3 Feed Page

This is the page where the user will be presented with a list of posts.

- A post contains:
 - On the top left of the post, there is the avatar and the name of the provider of that piece of news' post.
 - On the top right of the post, there is a percentage that represents the probability of the respective post of being fake.
 - On the left of the post, there is the thumbnail of the post's news.
 - The rest of the body is composed of a part of the beginning of the post's news.
- The user can click on post to be redirected to the original's page article.
- The user can click on the provider's avatar to be redirected towards the provider's profile page.

4 Profile Page

This page will display information about either the user or a news provider.

4.1 User

The avatar and a bio are displayed.

4.2 Provider

The avatar, the rating and a bio are displayed on the top of the page.

Below these, there is a small list containing a few of the most recent posts from the respective provider.

5 Settings Page

This page allows the user to change elements from their account.

The page opens up on the *Account Settings* menu.

5.1 Account

The user is able to change:

- The avatar
- The password
- The bio

5.2 Preferences

The user is able to update the list of providers he is subscribed to.

- The providers are displayed in pages of up to 4 providers each containing:
 - The avatar of the provider in the left of the item.
 - The name of the provider on the right of the avatar.
 - The credibility of the provider below the name of the avatar.
 - In the right of the element, a checkbox marking if the user is subscribed to the specific provider.
- The user can save the changes by pressing the *Save Settings* in the bottom right the menu.
- If the user is being subscribed to 0 providers, he is redirected towards the *Account Setup Page*.

6 Frequently Asked Questions Page

This page contains frequently asked questions about the site.

- The questions are displayed in a list.
- The user can click on a question to reveal its answer.
- There can only be one answer revealed at the time.
